To whom it may concern

Melrose Resources Egypt companies engaged the service of GFC (Green Focus and Consultancy) to provide and install 11.5 KWH per day, PV system on our building roof – Maadi, Cairo in 2013 and that their execution and installation has been professionally done in time and up to the standards and specifications required.

GFC team has demonstrated a high sense of commitment and professionalism and we do not hesitate to recommend GFC to any company or individual requiring to provide and install PV system anywhere, whether in Egypt or outside of Egypt.

We would have no hesitation to engaging GFC Company for further work.

If you required any further information please contact me at the number listed below.

Yours Faithfully,

Osama Soliman
Administration Manager
